

## Ethics Week 3: Data Privacy

**Group 3:** Tanya Wardally, Alana Robinson, Harrison Fung, Ed Hawkins

Dear Staff, Faculty, and Parents,

We are writing to inform you that to ensure the safety of our school community, we are opting in a Contact Tracing App. Here are the reasons:

- If you **opt-out** you will not be able to enter the building.
- Your data will always be kept secure.
- We will only share your location data to support our contact tracing efforts
- The contact tracing app should not ping you if you were not in close contact with someone who tested positive.
- Location data will be used **ONLY** to determine close contacts; based on devices found within 6ft.
